End of the Contest of Mr. Watson.

Mr. Black Wins.

Washington, June 29.—(Special)—A letter was received from Secretary Gresham informing the house, through Speaker Crisp, that a religious service in memory of the late President Carnot, of the French Republic, would be held Sunday next at 12 o'clock.

Mr. Crisp called for the contested election case of Thomas E. Watson, before C. C. Aldrich, president of the Georgia district.

Mr. Brown, democrat, of Indiana, a member of the committee on elections, raised the question of consideration, and no quorum appearing, division, the yeas and nays were ordered.

The debate was in progress, it seemed to be decided that consideration of the report was the quickest way to dispose of the question, and there were no negative votes recorded.

Mr. Pence called the attention of the house that the populists were given no right of consideration in the previous elections when the house was organized, although there were contests pending instituted by defeated populist candidates, and when Chairman O'Ferrall retired from the committee, a special request was made of the speaker to fill the vacancy with a populist, but that was denied, and through the action in the case, is in favor of the sitting member, Mr. Black.

Mr. Pence said that Watson had been elected. He desired to ask unanimous consent that Mr. Watson be permitted to address the house on the subject.

Such requests had been frequently asked and always granted, Mr. Pence said he had been informed by old members, and he had investigated The Record so far as to discover that in the contested election case of Thobe vs. Carlisle, in the fifteenth congressional district, Mr. Carlisle, chairman of the committee on elections, made the same request in behalf of Mr. Thobe, and it was granted.

Mr. Pence moved that the case be postponed until Monday at 2 o'clock, and, pending that motion, moved that when the house adjourned today it be adjourned until Monday next.

This latter motion was lost—65 to 96. The yeas and nays were called on the motion to postpone, the democrats opposing it, and the republicans and populists favoring it.

The vote resulted—yeas, 76; nays, 125; present, 1.

Messrs. Bryan, Conn, Cummings, Dunn, Harris, Latimer, McLaurin, Ryan and Warner, democrats, voted to postpone.

Mr. Brown said that the case had been unanimously reported from the committee, that at every step, Mr. Watson had been advised of his unconstitutionality.

Mr. Crisp, being chairman of the committee on elections, made the same request in behalf of Mr. Thobe, and it was granted.

QUARRELS IN THE COLORED CAMP

A Scheme to Save the Expenses of Ordinary

Montgomery, Ala., June 29.—(Special)—

The Most Honorable Lodge of the Most Accepted Masons, which has met at least several days, has elected a monkey and parrot Grand Master. Today, in the superior court, a bill of injunction was filed by H. L. Williams against the members of the grand lodge, as well as G. L. Bowen, the treasurer, and John D. Campbell, the grand master. The bill alleges that the things that the grand master has done make him a financial ruin of his work as grand treasurer, through the rules and regulations of the grand lodge require that he shall do so again. D. Campbell, the grand master of the grand lodge "refuses," so the bill alleges, "and fails to give the majority members or said lodge any opportunity to entertain him in any manner of kind, or to permit any member of the grand lodge to put any question concerning the said G. L. Bowen to prevent this report being made." The bill further alleges that a "committee of returns" has been appointed to consider the matter. It says that Mr. G. L. Bowen and F. M. Smith and Dr. C. M. Morris have collected about \$400 to turn over the money earner. The bill asks that he be enjoined from delivering the grand treasurer, and a committee of returns and grand master be appointed to receive the amount.

Judge Harman granted and appointed the "complaint receivers of the money" on July 12th, when the case was heard. The bill also alleges of the grand treasurer that he is complaisant, believing that the bill will be passed.

The bill has created much excitement among the large number of delegates who are in attendance on the grand lodge from all over the state.

**A Tax Damage Suit.**

Judge Hard had an important trial before him today, and the products of the court will perhaps last a week. It is W. R. S. Birmingham, Ala., June 29.—(Special)—While seated at the table this morning a cup of very hot coffee was turned over on the little baby of W. I. Brown at Ensley City, scalding its little body in a fatal manner. The scald will result fatally.

**The Mayor Returns.**

Mayo, Henry Hornsby returned today from the big city where he has been in attendance on the big campaign. He was very much pleased with his visit and thinks that good money will be had for the meeting. While north Mayo, Hornsby will be Washington City as president of the Dixie Inter-state fair to see if some of the great speakers will be willing to come to the fair and make addresses. He met with much encouragement in this line. Among the distinguished men who are willing to come are Gen. President Stevenson, ex-Senator Root, Secretary of the Carlisle and others. The presence of these gentlemen would be a great drawing card for the fair.

He attended the New York meeting as one of the representatives of the board of trade and returned this morning with Mayor

**In MUSCOKEE'S COURT.**

**One Man Is Acquitted of Murder. Another Sentenced.**

Columbus, Ga., June 29.—(Special)—In the superior court today W. L. Allen, the negro who killed Moses Anderson, another negro, at a dance about two weeks ago, was acquitted of the charge of murder. The jury was out only about fifteen minutes.

At the conclusion of this case the court took up the trial of Laura Bradford, a little negro girl, who is charged with poisoning Mr. Y. F. Freeman's babe, about a year ago. This case will occupy another day.

Dan Jones, the negro who beat to death his little niece, several months ago, was today remanded to jail for August 2d. Efforts to get a new trial were unsuccessful.

## A TRAGIC DEATH. UNDER THE BIG TENT THE ATLANTA WIN.

Mr. John Robinson Died Yesterday at the City Stockade.

PECULIAR CIRCUMSTANCES ABOUT IT

He Had Threatened to Commit Suicide Suddenly Taken Ill While Riding on One of the City Wagons.

Yesterday afternoon, about 4 o'clock, Mr. John Robinson died at the city stockade under peculiar circumstances.

Whether his death was the result of a sunstroke, whether it came from alcoholic poison, or whether it was suicide direct, will be decided this morning by the coroners' jury.

Yesterday Mr. Robinson was given a sentence of five days in the stockade upon the charge of being under the influence of intoxicants.

Wednesday he was a little sick, and was not required to go out to work. Thursday he was better, and it was thought best that he should go out to work, as it would serve to wear off the effects of his indulgence. He remained with the city gang Thursday, but seemed much worn out.

In a conversation with one of the other prisoners, he said that it would be his last trip to that place. Upon a former occasion he had said to Superintendent Vining that if sent to the stockade again he intended to commit suicide.

Yesterday morning he got up at 6 o'clock, seemingly in good health, and was taken out to work with the rest of the prisoners. The night before, however, he had complained, and a doctor was summoned, giving relief at once.

Yesterday at 12 o'clock when the dinner wagon came around, he asked Mr. Mills, the foreman, if he could return to the stockade, as he was feeling unwell. He stated also that he wanted to arrange some way to pay off his fine and leave. Mr. Mills consented.

The dinner wagon was in charge of a small boy, and on the way back Mr. Robinson talked constantly. When he had driven about a mile, the boy noticed that his language became incoherent and strange. He told the boy that some one had robbed him of \$400, and kept repeating it. Suddenly he became silent, and the boy looked back and saw that his head was resting on the side of the wagon.

He stopped and went back to him. Mr. Robinson was breathing hard, and seemed unconscious. As rapidly as he could, the boy drove to the stockade and told Mr. Vining of Mr. Robinson's condition.

"As I came up," said Mr. Vining last night, "he was breathing hard, and was totally unconscious. I sent for a doctor as soon as I could, but before any one could arrive Mr. Robinson had breathed his last. He died without pain."

Mr. Vining said that a small box containing pills was found in his pocket, but Dr. Harris, who was there, pronounced them harmless. The remains were brought into Patterson's undertaking establishment last night and arrangements for the funeral will be made today.

Several years ago, Mr. John M. Robinson was one of the best known traveling men in Atlanta. He was with a large firm in New York, and represented also a house in Philadelphia. Clever, genial and kind-hearted, he was liked by all who met him. He became unfortunate in his habits, however, and since then has led a dissipated career. He has a large number of friends in Atlanta, and the probabilities are, that they will be grieved to know of his death.

During the trial of Harry Hill, Mr. Robinson was one of the principal witnesses, as it was through him that the alleged forged notes were negotiated.

**OSCAR BALLARD DEAD.**

He Died Suddenly This Morning at Half-Past 1 O'clock.

This morning at half-past 1 o'clock in a small room in the rear of Chief Connally's office at the station house, Mr. Oscar Ballard died.

For several days he had been in a critical condition. His nervous system had completely collapsed and it was with a view of getting him to some quiet place that he was removed to the station house yesterday evening.

He was living at 25 Piedmont avenue and at 8 o'clock yesterday evening was transferred to the station house.

All arrangements had been made to carry him to some quiet place in the country this morning. He died suddenly. The nurse at the door noticed a change in his breathing and Dr. Huza was called. Nothing could be done, however, and in a few moments he expired.

Mr. Ballard was about thirty-five years old. He was an energetic business man and it was probably due to the fact of worrying his business that the attack came. For a number of years he was with his uncle, Captain Wilkes Ballard, in the transfer business. Afterwards he was with Mr. Henry Durand.

Several months ago he organized the Dime Parcel Delivery Company and was elected manager.

Mr. Ballard was a half brother to Mr. John Thomson, ticket seller at the union depot. The arrangements for the funeral and interment will be made this morning.

**CALL IT A SCAB SHOP.**

The Climax Has Been So Declared by President Knoblauch in His Motion.

The Climax barber shop, run by Messrs. Hoyt and Cramer, is now a scab shop according to the designation of President Knoblauch, and will remain one till Leper, the barber who was rejected as a member of the union, is discharged.

President Knoblauch stated yesterday that he was ready to arbitrate at any time, but in the meantime the Climax was a scab shop. Hoyt and Cramer both say that Leper will not be discharged, but that they will keep him in their employ just as long as his work is satisfactory.

Why Is It That So Many People  
Are Miserable?

## A PROFESSIONAL VIEW.

A Gentleman Who Has Carefully Observed, Tells the Secret Cause of it All.

"It seems surprising, but it is unfortunate true, that many men and women who ought to feel bright, strong, active and happy at this time of the year, are tired out, weak and miserable." Why are they in that condition? Neither they nor their friends know any more than many of the doctors do."

The physician paused a moment, reflected carefully, and then said:

"There is a single cause, one reason, and that can easily be traced to some forgotten incident, neglected cold, a chill, possibly the grip, but it has left its effects on the system. It has acted like a bad spot in a choice fruit. The strange thing is, that it almost always affects one, and only one organ of the body, and from that the poison spreads over the entire system. This organ is the kidneys, and this poison is uric acid. If the kidneys are strong and healthy, and throw the urine and from the blood there is no irritation, no uremia, no nausea and sick headaches, no restless feelings, no irregularities or spasms, then you have the secret cause of all these troubles, in a nutshell."

"I have spoken frankly, you will say," he continued. "Yes, I have, and I am afraid it will affect the life and happiness of thousands of people. Few people suspect the presence of this disease, because it is so easily overlooked, and it attacks the body before its presence is known. I have had a great experience upon this subject, and I am anxious to let you know about it. The thing that will stop this trouble and keep the kidneys healthy, the body perfect, the heart good, and the mind at rest, is the Warner's Safe Cure, which of course is now the standard remedy of the world for kidney trouble. Bright's disease and the various affections of the kidneys, can be traced to the same cause, and the Warner's Safe Cure will stop them all."

"Then you think, doctor?" I asked, "that most of the troubles of life, which people are complaining during June, can be traced to the cause that you have named?"

"Do most assuredly, and I believe you can easily follow the suggestions I have made. I have seen so many cases where this has proven true, that I have good reason to believe that most, if not all of my friends, young man, are out of sorts or have any of the symptoms of which I have spoken. I advise you to stop, reflect and act promptly and firmly."

## An Open Switch

Is no more dangerous than carelessness about your daily health. This is especially true in those private and delicate diseases peculiar to men and women. In the case of the women, it is important, even, to lose if they value their future happiness, to have a healthy organ in the human body in a healthy condition. Dr. H. W. Bowes, of Atlanta, has given me true and valuable information. If you will call or write him, then you will find him a man of great knowledge, and a successful specialist on the United States Army.

## EXPENSES OF CAMP.

Quartermaster General A. J. West Preparing the Annual Report.

MORE THAN \$13,000 ALREADY PAID OUT

There Will Be a Close Shave to Keep Within the Appropriation This Year. Facts from the Report.

Quartermaster General A. J. West is busy with the work of preparing his report to the state military advisory board relative to the financial feature of the encampment at Camp Northern this year. The report will be one of the most interesting this year ever before rendered by that officer and the military people all over Georgia and the public generally will be concerned. The report will show that the expenses of the encampment this year have come within the appropriation. This seems a surprise to the military men who were at the encampment at Griffin this year, because they gained so much advantage out of it, and the camp was run in such perfect trim all the while it did seem that the cost would outstrip the appropriation.

But owing to the skillful and conscientious work of Quartermaster General West the money has been put to such excellent account that the encampment this year was worth more than any preceding ones and yet will not cost the state anything extra, as some of the encampments have done in the past, when the management was not base upon a few years' experience the officers' charge have had.

It is very well known to the military of Georgia that the legislature two years ago cut down the appropriation to the encampment considerably. In fact, the house of representatives struck the entire appropriation from the general act, but by a strong effort it was put back on the list, but instead of \$40,000, it was allowed \$20,000 each year for the allowances, and the encampment has stood.

"I have spoken frankly, you will say," he continued. "Yes, I have, and I am afraid it will affect the life and happiness of thousands of people. Few people suspect the presence of this disease, because it is so easily overlooked, and it attacks the body before its presence is known. I have had a great experience upon this subject, and I am anxious to let you know about it. The thing that will stop this trouble and keep the kidneys healthy, the body perfect, the heart good, and the mind at rest, is the Warner's Safe Cure, which of course is now the standard remedy of the world for kidney trouble. Bright's disease and the various affections of the kidneys, can be traced to the same cause, and the Warner's Safe Cure will stop them all."

"Then you think, doctor?" I asked, "that most of the troubles of life, which people are complaining during June, can be traced to the cause that you have named?"

"Do most assuredly, and I believe you can easily follow the suggestions I have made. I have seen so many cases where this has proven true, that I have good reason to believe that most, if not all of my friends, young man, are out of sorts or have any of the symptoms of which I have spoken. I advise you to stop, reflect and act promptly and firmly."

It really takes longer than ten days for the soldiers to reap all the advantages from camp life. They ought to be in camp sufficiently long according to the orders of Lieutenant Satterlee, Inspector general of the Georgia volunteers, who called into camp and served out the term of ten days. Every soldier admitted into camp is required of staying ten full days which is a great benefit from the camp. By dividing the force it gave them a longer time in camp, and thus made it so they could reap advantages from the amazingly small allowance.
